

CATALINA SPM300GWF HI-TACK ADHESIVE

Technical Data Sheet

Product Description

- Catalina SP300GW is a flexible 3 mil premium white high gloss calendared film coated with a high peel, high-tack permanent blockout pressure sensitive adhesive on a #90 Stayflat Liner. It's suitable for a wide variety of flat and moderately curved surfaces, including indoor or outdoor intermediate signage, building windows and dividers, indoor floor and carpet graphics, truck graphics, as well as partial vehicle wraps. Catalina SP300GW is good for most petroleum solvents and lower aliphatic alcohols. For ultimate solvent resistance, edge sealing is recommended.

Product Dimensions

- 54" x 10'

Construction

Media Thickness	3.8 - 4.4 mils with adhesive
Adhesion	60 oz/in
Opacity	90% minimum

Physical Properties

Minimum Application Temp.	-2°C
Service Temperature	-45°C - +65°C
Water Resistance	Good
Humidity Resistance	Excellent
Solvent Resistance	-45°C - +65°C
Shelf Life	2 years when stored at 21°C and 50% relative humidity
Expected Lifetime Exterior	5 Years

Print Compatibility

- UV, Latex, Eco-Solvent, Solvent
