

SIGNMAX® ARTIST PAPER (GLOSS & MATTE)

Technical Data Sheet

Product Description

- Signmax Artist Paper is designed to provide photo quality printing with long term durability for indoor and outdoor applications. The paper has a specialized coating that makes it work easily well with eco-solvent ink systems. It's fast drying and has good ink absorption.

Application

- This product is ideal for photo realistic prints, fine art reproductions, kiosks, posters and point-of-purchase applications.

Product Dimensions

- 54" x 164'

Construction

Media Thickness	7.8 mil
Media Weight	235 gm
Surface Finish	Gloss or Matte

Print Compatibility

- Most solvent, eco-solvent and UV print platforms, as well as Latex and HP, Epson, Roland, Mimaki, Mutoh, Seiko, Océ and more.

Storage

- The product should be stored in it's original packaging when not in use. Storage temperatures should be between 10°C and 25°C.

Printing Recommendations

- Laminating is optional, but it will protect the image from damage and fading. For the best result, the printing temperature range between 15°C to 30°C and relative humidity between 30% - 60%. Recommended pre and post heaters at 30°C.
