

3M™ Advanced Flexible Engineer Grade Reflective Sheeting 7300 Series

3M™ Advanced Flexible Engineer Grade Reflective Sheeting, 7300 Series is printable, conformable, scratch and impact resistant. It is mainly used for temporary traffic control devices. 7310, White can be used for non-critical signs.

Printing Methods

- Solvent, UV, Latex

Material Sizes

- 24" x 50 Yards
- 48" x 50 Yards
- By the Linear Yard

Uses

- Low Energy Surfaces (Plastic, Moderately Rough or Porous Wood, Metal)
- Non-Critical Signs (White)
- Temporary Traffic Control Devices

Advantages

- Conformable on Low Energy Surfaces
- Scratch and Impact Resistant
- Meets ASTM D4956 Type I
- Micro-Seal Technology Eliminates the Need for Edge Sealing
- Easy to Install by Hand or Automated Equipment
- Features a Solvent-Free Pressure Sensitive Adhesive for Easy Application on Low Surface Energy Surfaces.
